

A Look at our Day...

Greeting Time

We start our day by greeting each other, completing our attendance board, and choosing an interest area.

Discovery Time

Young children make sense of their world through exploration, role play, discovery, and active play in their environment. A large block of uninterrupted time is given to actively engage in a variety of activities and to socially interact with others. Centers include math manipulatives, science and discovery, art and writing, literacy, role play, and sand/water table.

Circle Time

This is a time for language and literacy, songs, books, Bible stories, finger plays, and cooperative activities.

Small Group Time

We work in small groups with art projects and academically designed activities which promote cognitive development. These include letters, numbers, shapes, color recognition, problem solving, verbal skills, pattern and sequence, matching, and fine motor activities.

Outdoor Time

It is important to take time for large muscle activities, including climbing, running, riding, throwing, catching, etc.

Snack Time

This promotes healthy social interaction and good manners.

Closing Time

We end by talking about our day...what we experienced and learned, and then we tell each other goodbye.
